

MUHAMMAD FURQAN

Frontend Software Engineer | AI-Assisted Full-Stack & ML Developer

0322-7200433 | furqanzubair209@gmail.com | Lahore, Pakistan
[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Computer Science undergraduate and freelance software engineer who has shipped **36+ AI, machine learning, and full-stack projects** – including a tuned XGBoost model reaching $R^2 = 0.914$ on 6,607 records and a from-scratch chess engine. Currently building production frontend interfaces at FlyRank AI and CodeAlpha, pairing modern JavaScript frameworks with AI-assisted development workflows to ship faster without sacrificing quality. Comfortable end-to-end across Python, C++, PHP, JavaScript, and SQL, with secure authentication and relational database design built in from day one.

Experience

Frontend AI Engineer Intern

Aug 2026 – Present

FlyRank AI

Remote

- Shipped responsive, mobile-first interfaces for e-commerce-style pages using Tailwind CSS, cutting development time by pairing modern front-end frameworks with AI-assisted coding and debugging workflows
- Built a reusable UI component library adopted across multiple pages, reducing duplicate markup and keeping the design system consistent
- Ran structured QA passes across devices and browsers, catching accessibility and responsiveness issues before release

Frontend Development Intern

Aug 2026 – Present

CodeAlpha

Remote

- Shipped multiple responsive, interactive web pages in HTML, CSS, and JavaScript for real client use cases within tight internship sprints
- Partnered with the team on UI/UX revisions, keeping code clean and maintainable under agile review cycles

Freelance Software Engineer

Aug 2026 – Present

Upwork

Remote

- Took client projects from requirements to deployment across AI/ML systems, full-stack web applications, and n8n-based automation workflows
- Built full-stack and frontend applications in PHP, MySQL, JavaScript, HTML, and CSS for paying clients on tight turnarounds
- Delivered systems-level C++ programs (OOP, DSA, file handling) for console-based client requirements

Web Development and Designing Intern

Jul 2026 – Aug 2026

Oasis Infobyte

Remote

- Applied front-end design and implementation concepts across practical internship projects, strengthening core web development fundamentals under mentorship

Independent Software Developer

Sep 2024 – Present

Self-Employed

Lahore, Pakistan

- Shipped **36+ software projects** spanning AI, machine learning, full-stack web development, automation, and data structures using Python, C++, PHP, JavaScript, SQL, HTML, and CSS
- Built and evaluated ML models (Scikit-learn, TensorFlow, XGBoost, OpenCV) including a student performance predictor reaching $R^2 = 0.914$ on a 6,607-record dataset
- Engineered full-stack apps with authentication, role-based access control, and REST APIs, applying password hashing, input validation, and session management as standard practice
- Designed relational schemas in MySQL and Microsoft SQL Server; version-controlled all work via Git/GitHub

Projects

AI-Powered Web Scraping Agent | *Python, BeautifulSoup, Requests, CSV, JSON*

- Built an autonomous agent extracting book title, price, and availability data with pagination, filtering, and automated CSV/JSON storage, applying the PEAS framework and goal-based agent design

Student Performance Prediction System | *Python, Scikit-learn, XGBoost, Pandas, Matplotlib*

- Built an ML model predicting exam performance on a **6,607-record dataset**; benchmarked multiple regression models and achieved $R^2 = 0.914$ with tuned XGBoost

Furqan Chess • Full-Featured Chess Engine | *HTML5, CSS3, JavaScript*

- Built a ground-up, fully custom chess engine with move validation, time controls, undo/redo, PGN export, board themes, sound effects, and local game statistics, optimized for desktop, tablet, and mobile

Modern Web-Based Music Player | *HTML5, CSS3, JavaScript, Web Audio API*

- Developed a full-featured audio player with a complete custom design system, real-time waveform visualization via the Web Audio API, sleep timer, and persistent user preferences

Furqan Store – Full-Stack E-Commerce Platform | *PHP, MySQL, JavaScript, HTML, CSS*

- Developed a multi-role platform (Admin, Vendor, Customer) with secure authentication, cart, order processing, vendor commission management, and REST-style APIs

Face Mask Detection System | *Python, OpenCV, TensorFlow, MobileNet CNN*

- Developed real-time mask detection using a MobileNet-based CNN with webcam inference, CPU optimization, and audio/visual alerts

n8n Restaurant AI Automation Workflow | *n8n, Gemini API, Google Sheets*

- Automated order management, inventory tracking, and sales reporting; integrated Gemini API with Google Sheets for real-time customer feedback analysis

29+ additional projects (*Aether Weather App, Student Management Systems, Snake & Tic-Tac-Toe AI, Water Jug Solver, Exploratory Data Analysis, SQL analytics labs, Assembly & DSA implementations*) available on [GitHub](#) and [Portfolio](#).

Education

Bachelor of Science in Computer Science (BSCS)	2024 – 2028 (Expected)
<i>The Superior University, Lahore</i>	<i>CGPA: 3.50/4.00</i>
Intermediate in Computer Science (ICS)	2022 – 2024
<i>Superior College, Lahore</i>	<i>Grade: A (923/1200)</i>
Matriculation (Computer Science)	2020 – 2022
<i>Government High School Awan Town, Lahore</i>	<i>Grade: A+ (1006/1100)</i>

Technical Skills

- **Languages:** Python, C++, PHP, JavaScript, SQL, HTML5, CSS3
- **AI/ML:** Scikit-learn, TensorFlow, XGBoost, OpenCV, Pandas, NumPy
- **Databases:** MySQL, Microsoft SQL Server
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, n8n, Gemini API, Google Sheets
- **Concepts:** Data Structures & Algorithms, Software Engineering, UML, REST APIs, Secure Authentication

Certifications

- Introduction to Responsible AI – Google Cloud Skills Boost (2026)
- Introduction to Generative AI – Google Cloud Skills Boost (2026)
- Introduction to Data Science – Cisco Networking Academy (2026)
- Artificial Intelligence Fundamentals – IBM (2026)
- AI Fluency: Framework & Foundations – Anthropic Academy (2026)
- Claude Code 101 & Claude with Anthropic API – Anthropic Academy (2026)
- Character Mastery (Leadership, Ethics & Teamwork) – The Superior University (2024)
- Python Intermediate & C Intermediate – Sololearn (2026)
- SQL Intermediate & Data Analytics with AI – Sololearn (2026)
- Generative AI in Practice – Sololearn (2026)

Languages

English (Fluent) • Urdu (Native) • Punjabi (Fluent)
