

MUHAMMAD FURQAN

Frontend Software Engineer | AI & Full-Stack Developer

0322-7200433 | furqanzubair209@gmail.com | Lahore, Pakistan

[LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [Upwork](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate and freelance software engineer with hands-on experience building AI, machine learning, and full-stack web applications. Currently working as a Frontend AI Engineering Intern and Frontend Development Intern, applying modern frameworks and AI-assisted development workflows. Skilled in Python, C++, PHP, JavaScript, and SQL, with a track record of delivering 36+ end-to-end projects across web development, automation, and applied AI. Strong foundation in software engineering principles, secure authentication, and database design.

EXPERIENCE

Frontend AI Engineer Intern — FlyRank AI

Aug 2026 – Present

Remote

- Developed responsive, mobile-friendly web interfaces using modern front-end frameworks and Tailwind CSS
- Built reusable UI components and e-commerce-style pages, leveraging AI-assisted workflows to accelerate coding and debugging
- Ensured accessibility, performance, and cross-device responsiveness through structured QA

Frontend Development Intern — CodeAlpha

Aug 2026 – Present

Remote

- Built responsive, interactive web pages using HTML, CSS, and JavaScript
- Collaborated on UI/UX improvements, writing clean and maintainable code for real-world projects

Freelance Software Engineer — Upwork

Aug 2026 – Present

Remote

- Delivered client projects spanning AI/ML systems, full-stack web applications, and automation workflows using n8n and AI APIs
- Built full-stack and frontend applications with PHP, MySQL, JavaScript, HTML, and CSS
- Designed and implemented console and systems-level programs in C++ (OOP, DSA, file handling)

Web Development and Designing Intern — Oasis Infobyte

Jul 2026 – Aug 2026

Remote

- Applied front-end design and implementation concepts on practical, hands-on projects, strengthening core web development fundamentals

Independent Software Developer — Self-Employed

Sep 2024 – Present

Lahore, Pakistan

- Built 36+ software projects spanning AI, Machine Learning, Full-Stack Web Development, Automation, and Data Structures using Python, C++, PHP, JavaScript, SQL, HTML, and CSS
- Developed AI/ML solutions using Scikit-learn, TensorFlow, XGBoost, OpenCV, Pandas, and NumPy
- Built full-stack applications featuring authentication, role-based access control, REST APIs, and responsive dashboards, applying secure practices (password hashing, input validation, session management)
- Designed relational databases using MySQL and Microsoft SQL Server; used Git/GitHub for version control

PROJECTS

AI-Powered Web Scraping Agent | Python, BeautifulSoup, Requests, CSV, JSON

- Built an autonomous agent extracting book title, price, and availability data with pagination, filtering, and automated CSV/JSON storage, applying the PEAS framework and goal-based agent design

Student Performance Prediction System | Python, Scikit-learn, XGBoost, Pandas, Matplotlib

- Built an ML model predicting exam performance on a 6,607-record dataset; compared multiple regression models and achieved $R^2 = 0.914$ with tuned XGBoost

Furqan Store — Full-Stack E-Commerce Platform | PHP, MySQL, JavaScript, HTML, CSS

- Developed a multi-role platform (Admin, Vendor, Customer) with secure authentication, cart, order processing, vendor commission management, and REST-style APIs

Student Fee Management System | Software Engineering, Database Design, UML

- Built a fee management system with installment tracking and automated reporting, backed by role-based authentication, backup/restore, and full UML documentation

Face Mask Detection System | Python, OpenCV, TensorFlow, MobileNet CNN

- Developed real-time mask detection using a MobileNet-based CNN with webcam inference, CPU optimization, and audio/visual alerts

n8n Restaurant AI Automation Workflow | n8n, Gemini API, Google Sheets

- Automated order management, inventory tracking, and sales reporting; integrated Gemini API with Google Sheets for real-time customer feedback analysis
- 36+ additional projects (Student Management Systems, Snake Game, Tic-Tac-Toe AI, Water Jug Solver, Personality Predictor, SQL analytics labs, DSA implementations) on [GitHub](#) and [portfolio](#).

EDUCATION

Bachelor of Science in Computer Science (BSCS) — The Superior University, Lahore CGPA: 3.50 / 4.00	2024 – 2028 (Expected)
Intermediate in Computer Science (ICS) — Superior College, Lahore Grade: A (923/1200)	2022 – 2024
Matriculation (Computer Science) — Government High School Awan Town, Lahore Grade: A+ (1006/1100)	2020 – 2022

TECHNICAL SKILLS

- Languages: Python, C++, PHP, JavaScript, SQL, HTML5, CSS3
- AI/ML: Scikit-learn, TensorFlow, XGBoost, OpenCV, Pandas, NumPy
- Databases: MySQL, Microsoft SQL Server
- Tools & Platforms: Git, GitHub, VS Code, Postman, n8n, Gemini API, Google Sheets
- Concepts: Data Structures & Algorithms, Software Engineering, UML, REST APIs, Secure Authentication

CERTIFICATIONS

- Introduction to Responsible AI — Google Cloud Skills Boost (2026)
- Introduction to Generative AI — Google Cloud Skills Boost (2026)
- Introduction to Data Science — Cisco Networking Academy (2026)
- Artificial Intelligence Fundamentals — IBM (2026)
- Claude with Anthropic API — Anthropic Academy (2026)
- AI Fluency: Framework & Foundations — Anthropic Academy (2026)
- Claude Code 101 — Anthropic Academy (2026)
- Python Intermediate & C Intermediate — Sololearn (2026)
- SQL Intermediate & Data Analytics with AI — Sololearn (2026)

LANGUAGES

English (Fluent) • Urdu (Native) • Punjabi (Fluent)
